FISCAL REFORMS PRODUCE RESULTS

Treasury Department Example of Economical Administration.

EVEN DEMOCRATS APPROVE.

Under Taft Reorganization Accomplished, Frauds Stopped and Law Violators Punished—Divorced From Wall Street.

The treasury department has recently received the commendation of the Democratic appropriation committee of the house of representatives for the results achieved in bringing about economy and efficiency in that department. The general basis of this unusual praise is the fact that it is costing $2,500,000 a year less to run this big business machine of the government than it did three years ago when President Taft began his administration and initiated his campaign for governmental economy by placing an experienced business man, Secretary MacVeagh, at the head of the treasury department.

The Economy Effected.

The amount new saved each year is a 10 per cent reduction in the previous cost. It tells but half the story of the actual economy effected, for there has been a 10 per cent increase in the business of the department during this time, making a total gain in the interest of the taxpayer of 20 per cent.

The eagerness that now exists to make political capital out of criticism makes the fact eminently striking that through this period of investigation and inquiry the treasury department has been found a fruitless field of operation. It has not even been mentioned in connection with the alleged "money trust," for the reason that the treasury department is now for the first time wholly independent of the big bankers of the country in its operations. That the department should always be above the slightest ground for moral criticism is of course one of the fundamentals of its administration.

Frauds Are Punished.

The vigor with which the administration has gone after those who have attempted frauds on the customs revenue is illustrated by the fact that more than $5,000,000 has been collected in fines against dishonest importers and attempted smugglers. Jail sentences in numerous instances have been added to the fines. The result has been the creation of a wholesome respect for the law on the part of importers and Americans who travel in foreign lands. The entire machinery for the collection of customs has been overhauled, with the result that valuations are made more accurately, and many channels for frauds have been stopped. One of the special aids in this connection has been the special agents' service, which the secretary has taken personally in hand.

The other collection agency, the internal revenue service, has been brought to a high degree of efficiency. Its collections last year were the highest in its history—$322,000,000—which was collected at the expense of 1 68-100 cents for each dollar, a substantial decrease in cost. Internal revenue collectors are now giving the major portion of their time to their official duties, an innovation brought about for the first time through the insistence of the president that efficiency of administration was more to be desired than the developing of political machines.

Where Savings Resulted.

Savings in the method of printing the paper money of the country have been made to the extent of $600,000 annually, while similar work in the mints has resulted in cutting down the expenses annually to the extent of $483,000. By using the mails instead of the express a saving of $60,000 a year is effected in sending wornout notes to the treasury for redemption. Nearly $50,000 a year is being saved through improved methods in handling the paper on which money and postage and internal revenue stamps is printed. A similar amount is being saved through closer scrutiny and economy in printing the stationery for the department. The revenue cutter service adds to the list a saving of $100,000 a year with increased activities, so also does the public health service. There are many more details of savings, all telling the same story.

Genuine Reforms Made.

And this story is the strongest kind of a denial of the charge that President Taft has used the government employee to further his own political advantage. There have been 1,801 unnecessary places abolished under the treasury department in the last three years. Five hundred and forty-two of these have been in the department service in Washington. None of those in Washington whose places were abolished have been separated from the service by that fact. Secretary MacVeagh has rigidly adhered to the policy of saving the vacancies which occurred in the department by resignation and death, and these places have been filled by those who would otherwise have been dropped.

The facts above set forth are convincing proof that under the administration of President Taft genuine reforms in administration have been accomplished in bringing the government business to the most practical and economical basis in the interest of the whole people.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

Well, living under the shadow of the Bunker Hill Monument, the people of Massachusetts could hardly have been expected to hanker after a Dictator.

When California needed a friend at Washington she appealed to President Taft, and her appeal was not in vain. Now the President asks for the friendship of California, and the response should be equally prompt and effective.

The "Colonel" seems determined to keep his campaign up to the level of a prize ffght. He tossed his "hat in the ring;" accuses his Wisconsin opponent of "hitting foul;" left them "hanging over the ropes" in Illinois, and in Pennsylvania he thinks he "hit them middling hard."

ALWAYS OUR FRIEND.

Northern California is today enjoying a very substantial guarantee of President Taft's friendly attitude toward this State. An appropriation of $400,000 by the National government, is being devoted to the prevention of the overflow of the Sacramento and Feather rivers. This, one of the largest amounts ever devoted to this purpose, was secured from Congress largely through the co-operation of the President.

It is an admitted fact that no river appropriation was ever obtained without the aid of powerful influence at Washington, and with all respect for the patient efforts of California citizens who have carried the burden of river improvements, they might still be struggling for recognition at Washington had not President Taft interceded in their behalf. Certainly the people of California can hardly afford to displace this friend for one who has advised the removal of the tariff on lemons or urged Congress to provide for the naturalization of the Jap.

EARLY CHURCH WORK IN PORTOLA VALLEY

Corner Stone Laying Revives Memories of Pioneer Days of Catholic Missions

As announced in the Times-Gazette last week, on Sunday, May 5th, the corner-stone of a new Catholic church will be laid at Portola, a beautiful little valley about 10 miles southwest of Menlo Park.

The building of this church marks a renaiscence in the Catholic life of the little valley. Long ago when the greater number of the now flourishing parishes of the Diocese were but stretches of waste sand, Portola Valley, then known as Searsville, the name of its only settlement, was the center of a busy Catholic life. At that time, it was a station attached to a nearby Mission and attended from there by the good Franciscan Fathers. There are still living in and about Portola and Menlo Park, people who recall the gathering of the last of the old Spanish families and their households and the trailing in of the Indians on horseback and on foot from the surrounding hills to attend Mass on Sunday morning in the little old church named in honor of St. Denis.

But the Indians disappeared, the old Spanish families, for the most part, disappeared, and for years, American enterprise was too busy elsewhere to give heed to the possibilities of the little valley, either for ranches or for beautiful and secluded home sites. Searsville was abandoned. St. Denis' church became a prey to vandals and but a few tombstones in the sadly neglected and almost forgotten little cemetery to-day mark the scene of this bit of early California history.

Menlo Park succeeded to Searsville as the center of Catholic life in this district and until 10 years ago the few Catholic families ranching the valley and the surrounding hills were forced to drive ten or eleven miles every Sunday to hear Mass.

In 1903, the gradual growth of the valley, for the most part in the way of ranches, justified the opening of some sort of church where Mass could be said every Sunday. The Rev. B. J. McKinnon, then Pastor of Menlo Park, bought and fitted up for the purpose, at Portola, an old building once used there as a sort of hall or general meeting place by the people of the surrounding district.

In the last few years the fertility of the valley has attracted many ranchers, and its beauty and hill-sheltered area have induced one prominent club—The Family Club of San Francisco—to locate its club-grounds and preserves there, and many of our wealthy and representative San Francisco families to build magnificent country homes, some of them amongst the largest and most beautiful in the State.

A new church has thus become a need, and the Family Club, Catholic and non-Catholic members alike, together with many prominent families of the valley, have undertaken to make it one of the attractions of a very attractive valley.

The value of the improvement will be in the neighborhood of $20,000, the greater part of which has already been secured, partly through donations and partly as returns from a veritable Midsummer Night's Dream staged by the Family Club last year in the open spacious church grounds at Menlo Park.

The new church is designed by Mr. Miller of the firm of Miller and Comesnil, of San Francisco. Mr. Miller's services were generously donated.

The building will be on simple Mission lines, built of re-enforced concrete and roofed with Mission tiles. The seating capacity will be about 500. When completed the church will be free from debt.

Prominent among the donors are: The Family Club, the late Dr. Garceau the late Mr. Thomas Kelly of Portola, Mr. and Mrs. J. A. Folger, Mrs. Bertha Welch, Mr. A. J. Welch, Mr. George Whittell, Mr. W. O'Brien McDonough, Mrs. Thos. Kelly, Mrs. Maurice Doyle and Eugene Kelly.

The thorough financing and rapid completion of the work are due to the indefatigable efforts and able administration of the following finance committee:

Rev. George Lacombe, representing the Pastor of Menlo Park, Mr. J. A. Folger, Mr. J. K. Armsby, Mr. A. J. Welch and Mr. Andrew Carrigan.

The services on Sunday morning will begin with a High Mass at 9:30 o'clock. Rev. George Lacombe will be celebrant. The sermon will be preached by the Rev. Charles A Ramm of St. Mary's Cathedral, San Francisco. In the absence of the Most Rev. Archbishop who, a week ago, left for the east on pressing business, the Rev. John J. Cantwell, his secretary, has been specially delegated to perform the solemn ceremony of placing the corner-stone. He will be assisted by the Rev. Jerome B. Hannigan pastor of Menlo Park and Portola. The music of the Mass and the chants of the ceremony will be rendered by the choir of the Church of The Nativity, Menlo Park.

Rose Company No. 3 of the local fire department will give itstwenty-fifth annual dance at the Alhambra this Saturday evening. Their dances in the past have been very successful and they have outdone themselves to make this the most enjoyable of all. The committee of arrangements is as follows: J. A. Roza chairman; Wm. Lutze, secretary; Dan Stafford terasurer. Floor committee: Geo. Stafford manager, R. E. Bowie, Frank Allain, Robert Fox and Frank Fitzpatrick. Reception committee: J. N. Winter, J. P. Coleman, Jas McGlynn, A. L. Lowe, Ed. Allen Ed. Stephens, J. Allain and J. C. Dickey. The boys are always ready to help the town and are deserving of a generous support.

COUNCIL CONSIDERS STREET PAVINGS

New Boundaries are Outlined by Improvement Club for District Seventeen

That there is a vast diversity of opinion as to the best method of proceedure in the improvement of the County Road was made apparent at the meeting of the city council last Monday evening, when the perplexing problem was given consideration from every angle. With all of the trustees in their seats and a goodly number of interested specators in the lobby of the councilroom, almost the entire evening was devoted to a discussion of the subject, ending with no definite results.

As soon as the minutes of the last meeting had been approved, Chairman Merrill announced that the prime object of the meeting was the consideration of street improvement and that this subject would be given first hearing.

A communication was presented from the improvement club of the 17th district outlining the territory which it was desired should be included in the new district and asking that the council take the initiatory steps to have the work done under the provisions of the street improvement act of 1911, allowing each owner to elect whether to pay cash or to take advantage of a bond issue against his property. As the legal representative of the club, Attorney Archer Kincaid suggested some of the necessary steps and urged immediate action.

Chairman Merrill agreed that no time should be lost, suggesting that the people desire the improvement and that this was the time to do the work when many men desire employment. Upon motion of Trustee Hynding, the city attorney was directed to prepare a resolution of intention to be presented at the next meeting. The boundaries of the proposed district are as follows:

Beginning at the intersection of the east line of Arguello street with the north line of Alden street, thence along the northerly line of Alden street to the east line of Allerton street, thence along the east line of Allerton street to the northerly line of Fuller street, thence along the northerly line of Fuller street to the east line of Hamilton street, thence along the east line of Hamilton street to the north line of East Fuller street, thence along said line of Fuller street to the west line of Washington street, thence along the west line of Washington street to the south line of East Marshall street, thence along the south line of East Marshall street to the east line of Winslow street, thence along the said line of Winslow street to the north line of Broadway, thence along said line of Broadway to the easterly line of Arguello street and thence along said line of Arguello street to the northerly line of Alden street and point of beginning, including all street intersections therein.

With the desires of district 17 disposed of for the time, Chairman Merrill called up the subject of the County Road, suggesting that the council had to a large extent disposed of the preliminary work by the construction of retaining walls and curbs, and in a few moments it was evident that those interested were far from united in opinion either as to how the improvement should be made or the expense met.

As an affected property owner, George W. Lovie opened the discussion by asking for an explanation of the authority under which the state highway commission acted in refusing to construct portions of the state highway within incorporated municipalities. He argued that a highway, within the meaning of law, was a continuous stretch of roadway and that portions could not be passed over because of the district in which they were to be constructed. He suggested that before requiring the owners of abutting property to submit to the expense the council should secure expert lagal advice as to the duty of the State in the premises.

Trustee Deleau coincided with this opinion to a large extent, suggesting that in his opinion jurisdiction over the roadway might be surrendered by the city rather than that property owners should be burdened with a heavy expense which might be escaped. Trustee Hahir was also rather inclined to favor the plan of placing the roadway under the jurisdiction of the state commission, expressing the opinion that the authority thus conferred would relate mainly to the care of the highway and would present no material interference with the rights of the city.

Both Attorney Kincaid and Judge Fitzpatrick discussed the legal phases of the question, urging extreme deliberation before any action was taken looking to the surrender of any portion of the jurisdiction of the city over the streets. Several other owners of property joined in the discussion, all making it evident that the desire for some improvement was practically unanimous, but that the opinion was general that if any extraordinary expense was to be incurred at least a portion should be borne either by the State or the city at large.

With an understanding that the suggestions made would be given careful consideration by the trustees and another attempt made in the near future to secure a solution of the question, the whole matter was passed over for future consideration and other business was taken up.

John Armenia was granted permission to connect his premises, lying beyond the city limits, with the sewer in the County Road.

An invitation from the Fourth of July Committee of South San Francisco to join in the celebration in that city was accepted with thanks.

On behalf of the residents of Grant avenue Frank Sears entered an emphatic protest against the delay in the installation of street lights in that section. He called attention to the fact that while the petition for the lights had been granted by the council some three months ago no move had yet been made for the commencement of the work. Trustee Deleau suggested that the promises of the previous council should be adhered to and on his motion the city mechanic was directed to submit an estimate of the cost of the st of the necessary extensions at necessary extensions at the meeting of the council next Monday evening with a view to immediate undertaking of the work.

An ordinance making provision for the issuance of the bonds authorized at the recent special election was introduced and given its first reading.

Plans of a proposed bulkhead line for Redwood Creek from the railway crossing were presented by City Engineer Ploda and after some discussion were taken under advisement.

SEQUOIA HIGH PUPILS GIVE EXCELLENT PLAY.

All those who had the good fortune of attending the school play, and there were a goodly number too, will agree that it was one of the best amateur plays they had ever witnessed, if not the best Generally all plays of this kind, one or two people will carry off all the honors, but this seemed to be a cast of stars and each with a brilliancy far above expectations delighted the audience with cleverly portrayed characters.

There were none of those awkward pauses to remind one of the time when they forgot their lines on a similar occasion, but all seemed to live their parts and talk with a free and easy grace as if the lines were his individual proprety. Of course there is some one who deserves credit for this excellent showing and we are pleased to hand the laurels to Miss Merrill the the English teacher of Sequoia.

Superintendent of Schools Roy W. Cloud, has appointed W. J. Eva trustee of the San Mateo grammar school vice Henry Maier who resigned.

Roosevelt Favors Naturalization of Japanese.

The sixth annual message of President Roosevelt, delivered to the Senate and House of Representatives from the White House on December 3, 1906, contains the following:

"I recommend to the Congress that an act be past specifically providing for the naturalization of Japanese who come here intending to become American citizens."

What do Californians think of this? How can any Republican vote to nominate a man who holds and strives to enforce this view? **The people of California, regardless of party, are opposed to the naturalization of Japanese.** Let no Republican be deceived—Roosevelt wants to naturalize the Japanese.

San Mateo Principal Resigns.

O. A. Johnson, principal of the San Mateo high school, has resigned his position. He is accounted one of the best school men in California. Turner who played left for Redwood knocked out a home run in the sixth when Rdewood was one run behind. Gold ensen, who relieved Fox in the box, pitched a good game.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No charge can be made by the Assessor after he turnes over his books to the Boasd of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor as well as to yourself, to have your assessment correct when you go to pay your taxes.

C. D. HAYWARD,
3-2 Assessor San Mateo County
